SUMMARY

Passionate 3rd-year IT undergraduate at the Sri Lanka Institute of Information Technology (SLIIT), specializing in UI/UX design and frontend development. With a solid foundation in full-stack development and software engineering, I thrive in creating intuitive, responsive user interfaces and seamless user experiences. Seeking a Frontend Developer or UI/UX Intern position where I can apply my creativity and technical skills.

PROJECT EXPERIENCES

- **Pet Care web application**
 - Solo self-initiated project
 - This is a responsive frontend pet care web app with item search, daily deals, cart features, and 24/7 grooming bookings. Users can browse and buy pet food, accessories, and supplements easily across all devices.
 - Technologies: HTML, CSS, Js
 - <https://github.com/maheesha999/PetCare>
- **Hotel Reservation web application**
 - Solo self-initiated project
 - A responsive hotel booking system frontend that allows users to select check-in/check-out dates, number of guests, and preferred room types. Users can choose additional services, add selections to the cart, and view the total payment. The design is user-friendly and optimized for a seamless booking experience across all devices.
 - Technologies: HTML, CSS, Js
 - <https://github.com/maheesha999/KHotel>
- **E-commerce Fashion & Apparel web application**
 - Solo self-initiated project
 - This is a responsive frontend eCommerce app for fashion, accessories, and electronics, featuring category browsing, daily offers, and user notifications for a seamless shopping experience.
 - Technologies: HTML, CSS, Js
 - <https://github.com/maheesha999/Fashion-Apparel>
- **Ayurwell Health Care web application**
 - Academic Group project (Semester project)
 - A user-friendly full-stack web application for browsing doctors' available time slots, booking doctor appointments, and purchasing products from an integrated herbal store.
 - Technologies: Mern stack
 - <https://github.com/maheesha999/Ayurwell>
- **Coconut Cultivation Management System**
 - Academic Group project (Semester project)
 - A real-time estate management system with scheduling, inventory, staff, and buyer interaction features.
 - Technologies: Mern stack
 - https://github.com/maheesha999/Sobha_Plantation
- **Clothing Store web application**
 - Solo self-initiated project
 - A full-stack online clothing store with a responsive UI and admin panel for efficient product management.
 - Technologies: Mern stack
 - <https://github.com/maheesha999/clothing-shop>
- **UI Designs**
 - Solo self-initiated project
 - <https://www.figma.com/design/y4pqyul2DVyatpmigZWxCl/figma-mobile-design?node-id=1219-344&t=38t00xe4VYvUjA4A-0>
